

Triage Plus™

As an employer, you've done the right thing. You've used Medcor's Injury Triage to navigate your injured workers to the right level of care for their injury at the right place at the right time.

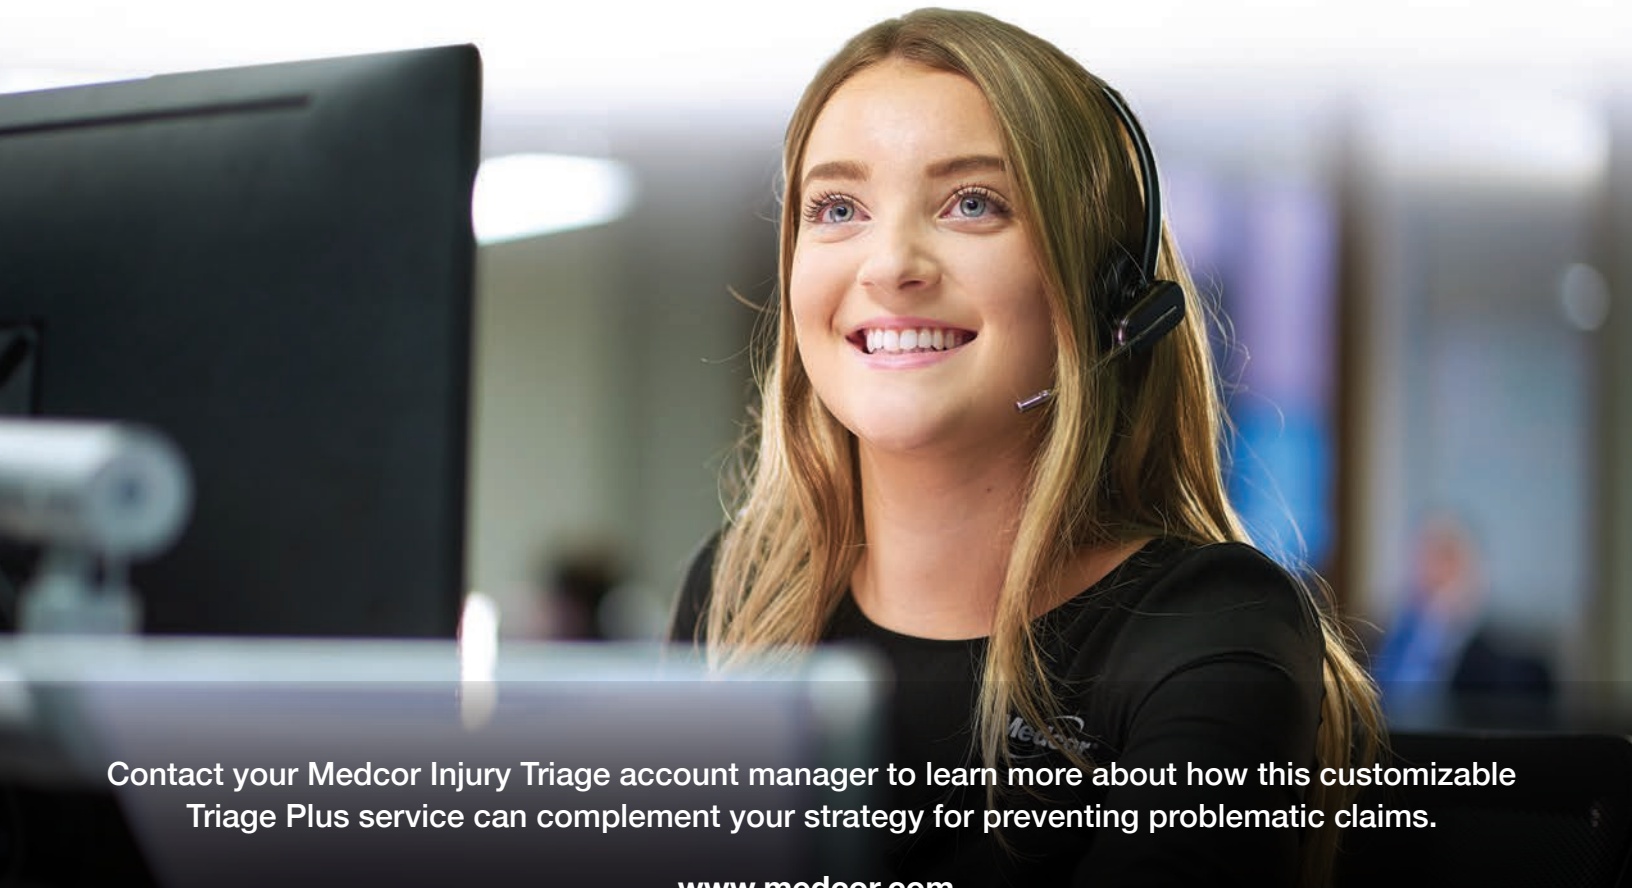

But what happens now? Do you have the systems in place to proactively check in with your injured employees?

We do. And we can be an advocate to your employees on your behalf.

With Triage Plus, you will:

- Let employees know you care about their wellbeing.
- Encourage employee accountability for their recovery.
- Find out how your employees are feeling.
- Find out if they have sought medical attention.
- Identify workers who need additional resources or education.
- Give them an opportunity to have their questions answered.

- + Triage Plus follows up after an injury.
- + You decide the criteria for who gets called.
- + You decide the frequency and amount of follow-up they receive.
- + You decide which information on injury status we report back to you.

Contact your Medcor Injury Triage account manager to learn more about how this customizable Triage Plus service can complement your strategy for preventing problematic claims.
