

# SB-553

**WHAT IS IT?** Senate Bill No. 553 (SB 553), introduced in California in September 2023 and effective July 1, 2024, requires most employers to implement workplace violence prevention plans, expanding protections beyond healthcare workers to enhance employee safety statewide.

## Don't just record incidents. **Stop them.**

Gabriel's advanced technology integrates with cameras, sensors, and access control systems to identify potential threats *before they escalate*.

### WHO HAS TO COMPLY?

SB 553 mainly impacts all employers with a workforce exceeding **10 employees**

## How can I comply?

Gabriel offers specialized expertise in fortifying businesses to meet all SB 553 requirements. We tailor solutions to each business's unique needs.

### 1. ASSESSMENT

Identify a workplace's hazards, risks, and security vulnerabilities.

### 2. PREVENTION

Build a prevention plan and implement the technology to mitigate risks and make the plan effective.

### 3. TOOLS

Set up physical and digital tools to report, alert, and respond to real-time incidents.

### 4. TRAININGS

Design a custom training program for employees to understand the prevention plan and hazards specific to their job assignment.

Achieving compliance with SB 553 is not just a regulatory requirement; it's a vital step towards safeguarding a business and its employees.
