

Contractor Management by KPA: Transforming Compliance and Efficiency

Managing contractors poses operational challenges and additional administrative process to safety professionals. Without a contractor solution, organizations can face hefty fines due to non-compliance from third parties.

Contractor Management offers a comprehensive solution designed to streamline the management of third-party contractors. By integrating advanced technology with user-friendly features, our platform ensures compliance, enhances operational efficiency, and mitigates risks, transforming the way you manage your contractual workforce.

“KPA has been helping to drive down number of injuries, most importantly, but also the cost associated with them.”

Luke Bramblett,
Director of Environmental Health
& Safety, Churchill Downs

Comprehensive Compliance and Reporting

- ◆ Utilize our Contractor Compliance Scoring and Risk Rating systems to assess and manage compliance risks proactively.
- ◆ Significantly reduce the risk of regulatory fines and legal challenges by gaining better visibility through enhanced reporting.

Streamlined Administrative Processes

- ◆ Automate contractor documentation through our centralized Contractor Portal and configurable prequalification standards.
- ◆ Save substantial time and resources, reducing administrative burden and allowing your team to focus on core operational tasks.

Enhanced Contractor Performance and Safety

- ◆ Deliver tailored training modules and manage onsite contractor visits efficiently with our Visitor Management system.
- ◆ Improve overall contractor performance and safety standards, leading to better project outcomes and reduced workplace incidents.
