Compliance Management WINS!

ROBOT FIGHTING LEAGUE?

The Director of Tournament Operations and Project Management was wearing 15 different hats - we were able to alleviate 3 of them- Contract management, COI tracking, and W9 tracking.

Thank you to **Kara Schott** for the referral to Compliance Management. Even though we weren't sure if the client would want to

afford the service we still provided
education and a demo.

Just goes to show, we never really know
until we try!

Account Managers-

Keep reading (it's just getting good)

Live Webinar

For Account Managers!

April 29th 9:30-10am

Aren't we all so busy!?

Let's keep this to a 30 minute meeting!

I'll talk with you about this service, do a little demo, and I'd
love to hear from you what your questions are about

Compliance Management!

- What can it help with? What does it do again?
- What clients is it worth mentioning to?
- Do I have to do more work?
- I already know exactly what it does, but somehow
never talk about it with clients- can you do that?

If anyone else would like to attend you're more than
welcome too 😊
