

Novara Risk Management Center

Differentiate with Safety and HR

Novara's Risk Management Center (RMC) is the proven value-add solution that brokers need to grow and retain their insured base. This strategic solution enables your clients to proactively manage risk to mitigate claims, losses, and associated costs.

With the RMC, you stand out from the competition and become a trusted business partner – providing tangible value to your clients that results in differentiation and “stickiness” for you.

Whether your focus is Property & Casualty or Employee Benefits, the Novara RMC is a comprehensive solution that lets your clients control and mitigate operational, regulatory, and compliance risks associated with their business.

Property & Casualty/ Workers' Compensation Solutions

The Novara Risk Management Center lets your clients control and mitigate property and casualty and workers' comp risks associated with their business.

Incident Track®	Report workplace incidents and claims, perform incident analysis, and generate OSHA reports.
SDS Track®	Manage Safety Data Sheets (SDS) and comply with the Globally Harmonized System (GHS) hazard communication standards.
Audit Track®	Perform self-inspections, performance reviews, and inventory controls.
BBS Track®	Cultivate a proactive safety culture with Behavior-Based Safety (BBS) Programs and Job Hazard Analyses (JHAs).
Safety Observation Track®	Track all safety observations to demonstrate job compliance and adherence to safety controls.
COI Track®	Streamline the Certificate of Insurance (COI) management process to minimize third-party vendor risk.
Training Track™	Automate the entire employee training process and gain access to an extensive library of online safety and HR training.

Loss Control Services

Novara's loss control services, combined with the RMC, help your clients maintain an effective risk management program and reduce workers' compensation costs.

On-site Audit/Loss Control Consultation	Identify and diagnose risk management issues and develop mitigation plans.
Self-Inspection Schedule	Develop an internal self-inspection and Safety Committee meeting schedule.
Follow Up & Quarterly Calls	Supports internal safety personnel through scheduled contact with Novara loss control specialists.

“The RMC platform delivers solutions at the touch of a mouse and is a key element in helping our customers become more successful. That in turn supports new business and client retention for our agency.”

Employee Benefit Solutions

Your clients' most important assets are their people. Help your clients maintain compliance with HR regulations that impact their workplaces.

HR Training & Content Library

Gain access to 100s of practical HR compliance templates and training programs.

HR Toolkit

Leverage interactive HR tools – employment classification wizard, state law finder, and salary benchmarking.

Ask the HR Expert

Get on-demand phone/email advice from HR professionals and labor attorneys.

HR Alerts and Newsletters

Receive up-to-date information on regulatory changes along with HR tips and tools.

Job Description Track®

Build job descriptions that clearly communicate responsibilities, performance expectations, and associated safety/health requirements.

Training Track™

Access an extensive library of online HR training to automate the employee training process.

RISK MANAGEMENT CENTER by Novara

About Novara

Novara provides safety and operational risk management software for high-risk industries that empowers organizations to identify and resolve issues before they become incidents. Through the Flex and Risk Management Center platforms, Novara helps organizations address operational risk proactively by unifying data, increasing workforce engagement, and proactively managing risk. Novara's combination of training, software, and tools puts people and safety first while protecting critical operations.
